Since the showing made by the hunters on the opening day of the season it has been evident that there would be no im-mediate need for the limit to be lowered

mediate need for the limit to be lowered for the convenience and accomodation of the ducks, nor raised for the satisfaction of the hunters.

"They come darned high, these ducks that you kill yourself."

This opinion is scouted by some, but the number of bags that were brought back with short weight showed an average cost of \$5 per bird, according to the rueful calculation of several enthusiasts,

Mitchell Got the Limit

Mitchell Got the Limit.

The best scores came from Balley's lake The best scores came from Balley's linke and the preserves of the New State Gun club. At the former haunt of the bird President Mitchell of the Western Arms and Sporting company got his legal limit, while his brother got a tally of thirty. From the latter grounds, George Derreame in with a bag of thirty-five, as did Dr. Snow, President Margetts getting the limit.

Conditions at White lake were very unfavorable. Five and six birds aplece was the average among the good shots that were located there, while those that came home with empty bags were in strong force.

Birds Flew High.

Birds Flew High.

The reason for this was not so much poor marksmanship as the weather, which drew all the birds up to the clear sky as soon as day broke. As it continues fine there seems little likelihood of those who have stayed out over Sunday fulfilling their hope of keeping up their reputations.

Even at Church Farm lake the kill was light. Here, too, there was no scarcity of birds nor ammunition, but the absence of clouds drove the water fowl high up beyond the reach of powder. Bags of ten and twelve were the average among the good guns, while the medicore short reported that they all had very bad positions and their guns were not used to hard work anyway.

Sheriff Got Twenty.

Sheriff Got Twenty.

Sheriff Got Twenty.

Sportsmen who tried their luck along Black slough returned with varying tales of success. Many birds flew, but they flew high. The record bug was thirty-eight but the name of the lucky man was not learned. Several got a few more than thirty. Sheriff Emery returned with twenty to his credit and he was among the more fortunate.

A number of large flocks flew. Most of the ducks were small. Some mallards were in evidence. Two hours after sunjp it was hot and in all respects the morning was a bad one. By the time the sun had appeared the birds were the sun had appeared the birds were hunting the heavens.

Down along Eleventh South and Twelfth South the sloughs on the river were lined with hunters. None of these got more than eight birds.

In fact very few were seen. The smelter smoke is blamed for this, for ducks were not in evidence in this section, where once they flew thick. Scores of shells were burned by hunters who never disturbed a feather.

At the Bear Lake club most of the members have taken a respite from business to give the birds a respite from life and rost. Conditions there are reported to be more favorable to the guns as the sky is cloudler than it has been in the Salt Lake valley.

For the first time in the history of the sport in this State automobiles were impressed into general service. Those who took the modern conveyances had a pull over those who kept to the ide destination in one-third of the time taken by the others. At Balley's lake the "bubbles" were used by nearly all the members, the cars having been charicred from the Salt Lake Auto company. At the Church Farm lake private autos were those of B. Finch, with a total of twenty;

Cause of Lockjaw.

Lockjaw, or tetanus, is caused by a bacillus or germ which exists plentifully in street dirt. It is inactive so long as exposed to the air, but when carried beneath the skin, as in the wounds caused by percussion caps or by rusty nails, and when the air is excluded the germ is roused to activity and produces the most virulent poison known. These germs may be destroyed and all danger of lockjaw avoided by applying Chamberlain's Pain Balm freely as soon as the injury is received.
